International Mutual Learning & Integration
A New Ecology of Industry-Education Integration Driven
by New-Quality Productive Forces

 2026.9.11-13

 Nanjing International Expo Centre

10th Anniversary

WELCOME TO NANJING

EducationPlus

Originating from didacta, EducationPlus is an educational expo supported by Germany's Federal Ministry for Economic Affairs and Energy (BMWE)) in China. Co-hosted by didacta and Landesmesse Stuttgart GmbH & Co. KG, it has focused on "AI Empowers Science and Education, Deepening Industry-Education Integration, Connecting International Resources" since its launch in China in 2016, successfully holding 9 editions in multiple cities.

The 10th EducationPlus takes "Scientific and Educational Innovation Empowering Future Education" as its theme. It gathers over 400 participating entities from nearly 20 countries, covering the entire chain of vocational education, and applied higher education.

Concurrently, more than 20 seminars will be held, focusing on topics such as AI + Education, Future Education, and connecting cooperative education between international institutions. We sincerely invite all sectors to come to China and participate in the 10th EducationPlus Expo!
